## **DETAILED ACTION**

### **Status of Claims**

This is in response to applicant's amendment filed 12/19/05.

Claims 10 and 13-14 are pending.

Claims 1-9 and 11-12 have been cancelled.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 10 and new claims 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by:

(1) Bowie et al., Electron Impact Studies, Skeletal-Rearrangement Fragments In The Mass Spectra Of Alkyl And Aryl Isoxazoles, "Australian J. Chem., 1969, 22, pp. 563-575".

(2) Royer et al., Recherches sur le benzofuranne.XI.-Formation d'isoxazoles par action de l'hydroxylamine sur les derives 3-carboyles du benzofuranne, Memoires Presentes A la Societe Chimique.

(3) Giuseppe, Conjugation in unsatd. Systems containing heteroatoms- (I) phenylisoxazoles.

(4) Yasuda Hiroyuki, "Syntheses of 4,5-disubstituted isoxazoles and their cleavage reaction with Na ethoxide- (II) application to the determination of attack point of ethyl formate on unsym, ketones.

(5) Yasuo et al., JP 58148858 for the reasons set forth in the previous office action mailed on 04/01/05.

***Response to Remarks***

Applicant's arguments filed 12/19/05 have been fully considered but they are not deemed persuasive. Applicant's amendment filed 12/19/05 failed to fully overcome the anticipatory rejection of record because the claim language (proviso) is not completely adequate to overcome the rejection of claim 10. It is suggested that the proviso in claim 10 be written in the following format for variable "OH" to be properly excluded.

(1) When R<sup>2</sup> is H, methyl or ethyl, r is an integer from 1 to 4; then R<sup>1</sup> is not OH and

(2) When R<sup>2</sup> is unsubstantiated C<sub>1</sub>-C<sub>4</sub>alkyl, then R<sup>1</sup> is not OH. Amending claim 10 in this format will obviate the rejection of record.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
